

D·E·J Face Cream®

Advanced all-in-one age-defying moisturiser

PRODUCT FACT SHEET

packaging size (retail)	professional size	trial size	sample available	product pH level	product should last
48g bottle	NA	14g	3ml tube	Skin-Neutral	2-4 months

Primary Benefits

An advanced skin-renewing moisturiser Inspired by the Dermal-Epidermal Junction (DEJ), a critical factor in skin ageing, that significantly reduces fine lines and improves skin texture and radiance in as early as 4 weeks.¹ Improves additional signs of ageing by firming and plumping sagging, thinning skin and reducing overall photodamage. Features a Microbiome-friendly formula and helps skin maintain a healthy, skin-neutral pH while reducing redness. A robust blend of antioxidants also helps shield skin from free radical damage.

Points of Difference

D·E·J Face Cream® is one of the only products designed with the skin's Dermal-Epidermal Junction (DEJ) in mind which plays a significant role in skin ageing. Clinically-proven to improve multiple signs of visible ageing to deliver results in as early as 4 weeks.¹ Also is clinically-proven to reduce transepidermal water loss and help the skin maintain a skin-neutral pH between 4.5-5.5. One of the most comprehensive anti-ageing moisturisers on the market that features a microbiome-friendly formula with a powerful blend of moisturisers and hydrators, bioavailable peptides, and antioxidants including THD Ascorbate. It is also recommended to use pre-procedure to reach healthier skin for optimal results and post-procedure after skin has healed to help maintain results.

Who Benefits

All skin types and those looking for an intensive moisturiser that addresses and corrects the visible signs of ageing in one comprehensive product. Great for patients looking for a moisturiser that is oil-free and includes antioxidant and prebiotic benefits. Also recommended for use as part of a pre- and post-procedure skincare regimen.*

How to Use

In the morning and evening after cleansing and applying all other treatment products, dispense one to two pumps into the palm of hand and gently smooth onto face avoiding the eye area. Allow product to absorb before applying sunscreen in the morning. If also using D·E·J Night Face Cream®, use D·E·J Face Cream® in the morning and D·E·J Night Face Cream® in the evening.

Formula Information

This formula has a skin-neutral pH and helps the skin maintain a skin-neutral pH. It is also free of oils, artificial dyes and fragrances and is formulated without parabens, sulphates, phthalates and alcohol.

Ingredients

WATER (AQUA), CAPRYLIC/CAPRIC TRIGLYCERIDE, JOJOBA ESTERS, CETEARYL ALCOHOL, CETYL ESTERS, PENTYLENE GLYCOL, CETYL PALMITATE, HELIANTHUS ANNUUS (SUNFLOWER) SEED OIL UNSAPONIFIABLES, TETRAHEXYLDECYL ASCORBATE, STEARYL ALCOHOL GLYCERIN, ALPHA-GLUCAN OLIGOSACCHARIDE, DIMETHICONE, HORDEUM DISTICHON (BARLEY) EXTRACT, TRIDECYL STEARATE, NEOPENTYL GLYCOL DICAPRYLATE/DICAPRATE, SANTALUM ALBUM (SANDALWOOD) EXTRACT, PHELLODENDRON AMURENSE BARK EXTRACT, DICETYL PHOSPHATE, CETETH-10 PHOSPHATE, BUTYLENE GLYCOL, TOCOPHEROL, SQUALANE, URSOLIC ACID, PSEUDOALTEROMONAS FERMENT EXTRACT, SODIUM LAUROYL LACTYLATE, HYDROGENATED LECITHIN, ETHOXYDIGLYCOL, ASTRAGALUS MEMBRANACEUS ROOT EXTRACT, SODIUM HYALURONATE, SILANETRIOL, RHAMNOSE, LYCIUM BARBARUM (GOJI) FRUIT EXTRACT, ACETYL TETRAPEPTIDE-2, LECITHIN, COCOS NUCIFERA (COCONUT) FRUIT EXTRACT, TRIDECYL TRIMELLITATE, ROSMARINUS OFFICINALIS (ROSEMARY) LEAF EXTRACT, CERAMIDE NP, SORBIC ACID, PALMITOYL HEXAPEPTIDE-14, CERAMIDE AP, PHYTOSPHINGOSINE, CHOLESTEROL, TOCOPHERYL ACETATE, CAPRYLYL GLYCOL, CERAMIDE EOP, CARBOMER, DISODIUM EDTA, METHYLPROPANEDIOL, UBIQUINONE, DIPROPYLENE GLYCOL, GLYCERYL CAPRYLATE, PROPANEDIOL, SODIUM HYDROXIDE, CHLORPHENESIN, XANTHAN GUM, POTASSIUM SORBATE, SODIUM BENZOATE, BENZOIC ACID, PHENOXYETHANOL, ETHYLHEXYLGLYCERIN, CITRIC ACID.

*Revision Skincare® products are not intended for use on broken skin and should only be used once skin has fully healed following your procedure.

D·E·J Face Cream®

Advanced all-in-one age-defying moisturiser

F R E Q U E N T L Y A S K E D Q U E S T I O N S

1 What is the DEJ? The DEJ is the Dermal-Epidermal Junction. It is the basement membrane where the dermis and epidermis meet that helps support the skin's structure. As we age, key proteins break down in this area increasing the visible signs of ageing. During youth, this junction is very "wavy". With age, this junction flattens and skin becomes more slackened. It's a key area for skin cell communication and cohesion. Research has shown that addressing the health of the DEJ greatly affects the outward appearance of the skin.

2 What are the key ingredients that target the DEJ in this product? Acetyl Tetrapeptide-2 and Palmitoyl Hexapeptide-14 help increase the synthesis of Collagen IV, Fibronectin and Elastin in the DEJ to diminish the appearance of fine lines and wrinkles and restore density. Rhamnose and Silanetriol help stimulate the production of multiple DEJ proteins, including Collagen IV, Collagen VII, and Laminin-5. Furthermore, these ingredients, when combined, have been shown to improve a thin and flat DEJ to resemble that of youthful skin with a wider and wavier DEJ. Pseudoalteromonas Ferment Extract helps increase the synthesis of Collagen IV and reinforces dermal-epidermal structural integrity and cohesion. It also increases synthesis of Collagen I, III, and Elastin to help improve nasolabial fold elasticity and firmness. Tetrahexyldecyl (THD) Ascorbate also helps to enhance the DEJ to promote skin firmness and brighten skin. These ingredients together help improve the DEJ to diminish fine lines and wrinkles, redensify, firm and lift the skin.

3 How does this product help the skin's Microbiome? Alpha-Glucan Oligosaccharide, a prebiotic, selectively supports the growth of healthy organisms which helps balance and support diversity on the skin's Microbiome to promote overall skin health. Pseudoalteromonas Ferment Extract is also a postbiotic that supports the skin's microbiome.

4 Which ingredients provide moisture to the skin? Multiple ingredients including botanical extracts and antioxidants help moisturise and hydrate skin including Hyaluronic Acid, Sunflower Seed Oil Unsaponifiables, Rosemary, Squalane and Vitamin E. Also contains Lipid Technology which is a blend of ceramides, cholesterol, fatty acids and botanical extracts that biomimics skin's natural lipid levels to restore and protect its barrier.

5 Which ingredients provide antioxidant benefits? This product contains a synergistic blend of 11 antioxidants that help achieve multiple benefits including shielding skin from environmental stressors and enhancing skin's moisturisation. THD Ascorbate (Vitamin C) is clinically-proven, superior and the most stable form of Vitamin C that helps revitalise and brighten dull skin while making it appear firmer. Other featured antioxidants include Vitamin E, Goji Fruit Extract and Ubiquinone (Coenzyme Q10).
