Primary Benefits

Ultra-rich night cream firms the skin, reduces the appearance of fine lines and wrinkles and provides intense moisturisation while you sleep.

Points of Difference

Firms the skin through multiple pathways. Provides both long-term and short-term moisturisation with Shea Butter, Hyaluronic Acid and Barley Extract. Palmitoyl Tripeptide-5 and Palmitoyl Tetrapeptide-7 work together to strengthen the skin and improve firmness and elasticity.

Who Benefits

Mature skin, dry skin and sensitive skin types especially benefit from this product. Not suitable for oily and acne-prone skin.

How to Use

In the evening, smooth a small amount onto a freshly cleansed face after applying all other treatment products. Avoid eye area. Reapply to dry areas as needed.

1 Why is it important to use an anti-ageing product at night?

At night, skin cells repair themselves from the damage encountered during the day. Skin loses most of its moisture at night so it's important to keep it replenished. Anti-ageing ingredients are also more effective when your skin is properly hydrated.

2 Which ingredients have anti-ageing benefits?

Firming Night Treatment contains Palmitoyl Tripeptide-5 and Palmitoyl Tetrapeptide-7. These two anti-ageing peptides help to increase collagen production, firm the skin and reduce the appearance of fine lines and wrinkles.

3 Which ingredients are moisturising?

Firming Night Treatment contains Sodium Hyaluronate to bind moisture and draw it into the skin. Shea Butter, Barley Extract and Sandalwood Extract provide immediate moisturisation. Lecithin derived from Soy and Glycolipids provide long-term moisturisation by helping to rebuild the skin's own natural lipid barrier.

4 Is this product fragrance-free? Firming Night Treatment is free of artificial fragrances. It does contain aromatic extracts of Rose and Lavender.

5 I have dry skin and am prone to breakouts.

Can I use this product? We do not recommend Firming Night Treatment for those who are prone to breakouts due to the emollient nature of the product. Hydrating Serum is better suited for this skin type.

6 When should I apply this product in my skincare regimen?

Apply Firming Night Treatment after cleansing, toning and all other treatment products. This should be the last step in your nightly skincare regimen.

7 Which other Revision products work well with Firming Night Treatment?

- Gentle Cleansing Lotion or Gentle Foaming Cleanser
- Soothing Facial Rinse
- Revox™ 7
- Nectifirm®
