

Gentle Foaming Cleanser

Soap-free cleanser that comforts and moisturises all skin types

PRODUCT FACT SHEET

packaging size (retail)	professional size	trial size	sample available	product pH level	product should last
148ml pump	500ml	NA	NA	Neutral	2-4 months

Primary Benefits

This soap-free cleansing foam features a unique amino acid surfactant that gently and effectively removes make-up and impurities. The rich, velvety foam comforts skin while calming and soothing with Camomile, Aloe Vera and Allantoin, and also delivers moisturising and nourishing benefits that leave skin feeling soft and smooth. The formula provides antioxidant benefits and helps minimise oxidative stress. Gentle Foaming Cleanser can be used in combination with non-surgical clinical procedures.*

Points of Difference

Gentle Foaming Cleanser is formulated with a unique amino acid surfactant that is soap and sulphate free and provides a rich lather for gentle and effective cleansing without drying the skin. It also contains ingredients that provide multiple skin benefits: Camomile, a botanical extract that naturally calms irritated skin; Allantoin, which provides moisture retention and provides a soothing effect; Aloe Vera, a hydrating emollient that enhances skin's natural moisture barrier and soothes irritated, compromised skin; and Pro-Vitamin B5 which helps relieve oxidative stress. The formula also provides antioxidant benefits and can be used post-procedure.*

Who Benefits

Ideal for normal, dry, oily or combination skin types, including mature skin that is dry and sensitive or irritated skin. This formula is ideal for those looking for a foaming cleanser that lathers without sulphates, so skin won't feel dry. It is also the perfect choice for those considering or undergoing in-clinic procedures.*

How to Use

Dispense one pump into palm of hand and massage the rich foam lather onto face using circular motions. Rinse thoroughly and pat skin dry. Use twice daily.

Ingredients

WATER (AQUA), SODIUM COCOYL GLYCINATE, GLYCERIN, SORBITOL, PEG-8, COCAMIDOPROPYL BETAINE, GLYCERETH-26, ALLANTOIN, ALOE BARBADENSIS LEAF JUICE, PANTHENOL, CHAMOMILLA RECUTITA (MATRICARIA) FLOWER EXTRACT, LEUCONOSTOC/RADISH ROOT FERMENT FILTRATE, DISODIUM EDTA, ETHYLHEXYLGLYCERIN, PHENOXYETHANOL, TOCOPHEROL, CITRIC ACID, POTASSIUM SORBATE, SODIUM BENZOATE.

- For all skin types including sensitive skin
- Formulated without alcohol, parabens, sulphates or phthalates
- Free of soap, artificial dyes, fragrance and oils
- Safe for pre- and post-procedure skin*

*Revision Skincare® products are not intended for use on broken skin and should only be used once skin has fully healed following any procedure.

Gentle Foaming Cleanser

Soap-free cleanser that comforts and moisturises all skin types

F R E Q U E N T L Y A S K E D Q U E S T I O N S

1 Does this cleanser lather? This liquid cleanser contains a pump that mixes the product with air to create a foam. Therefore, it is already considered a lather when dispensed and additional lathering in the hands is not required. The unique amino acid surfactant is soap and sulphate free and allows for this rich and dense foaming output which feels soft and velvety on the skin.

2 What is a soap-free cleanser? A soap is a cleansing agent that is derived from fats (i.e., animal), oils, and other fatty derivatives. Soaps are more commonly used for body cleansing and can be considered drying due to their pH level. They are identified by their ingredient name which contains an alkali salt modified with a fatty derivative. For example, the soap ingredients in Dove® Beauty Bar would be sodium palmitate, sodium tallowate, sodium cocoate, and sodium palm kernelate. Our Gentle Foaming Cleanser contains cleansing agents that are free from fats, oils, and fatty derivatives. This soap-free cleanser is best for patients that require a gentle and soothing cleanser.

3 Can I use this cleanser on irritated, dry or post-procedure skin? This cleanser utilises a mild, soap and sulphate free surfactant that gently cleanses and can be used on sensitive skin types and post-procedure skin after skin has fully healed following a procedure. In addition, ingredients such as Camomile, Allantoin, Aloe Vera and Panthenol work together to soothe, moisturise and nourish irritated or dry skin leaving it feeling soft, hydrated and smooth.

4 What is the difference between Gentle Cleansing Lotion and Gentle Foaming Cleanser? Gentle Cleansing Lotion is a moisturising lotion-based cleanser that can be used on all skin types especially very dry or sensitive skin. It contains mild surfactants that cleanse skin without drying as well as intensive moisturising ingredients such as Squalane, Algae Extracts, Panthenol, Vitamin E and Glycerin. Rose Flower Extract, Lavender Flower Extract and Bisabolol soothe and calm skin.

For those who prefer a foam or lather cleanser, Gentle Foaming Cleanser features a rich, velvety lather upon dispensing that also provides mild cleansing while removing makeup, excess oil and environmental impurities. Allantoin, Camomile, Aloe Vera and Panthenol soothe, hydrate and nourish skin while providing antioxidant benefits.

Gentle Cleansing Lotion is recommended for very dry or sensitive skin given its lotion base but can be used on all skin types. Gentle Foaming Cleanser is recommended for those who prefer a foam or lather cleanser and is ideal for normal, dry, oily or combination skin types, including mature skin that is dry. Both can also be used on sensitive skin types or irritated skin as well as after in-clinic procedures.*

*Revision Skincare® products are not intended for use on broken skin and should only be used once skin has fully healed following your procedure. Consult with your practitioner before starting this skincare regimen.
